EXPERIENCE

Associate Software Engineer

Production-Grade AI Systems & Backend Automation

Definedge, Pune

10/2025 - Present

- Delivers production-grade AI solutions using **Python**, **FastAPI**, **FastMCP**, **LangChain**, and **Model Context Protocol (MCP)**; architected an internal **MCP server integrating 70+ financial APIs/tools** for stock market and portfolio automation, supporting authenticated trading workflows (buy/sell/modify/cancel orders) with **JWT-based authentication** and secure session management.
- Engineered advanced **Agentic AI workflows** by building **RAG** and multi-agent systems with **n8n**, integrating LLMs, Pinecone vector databases, external REST APIs, and custom tools for context-aware internal automations.
- Developed an OCR solution using **DocTR** for **KYC document verification**, enabling highly accurate text extraction, document understanding, and fully automated identity verification workflows.
- Builds end-to-end AI applications leveraging **React**, **Python**, and AI services; collaborates in cross-functional **Agile** teams to design scalable architectures, optimize AI inference performance, and deploy secure, robust systems.

Associate Software Engineer

Full-Stack & Frontend Engineering

MaxScripts Technologies

3/2025 - 8/2025

- Developed scalable, high-performance web applications using **React.js**, **TypeScript**, and **Tailwind CSS**, optimizing application rendering speeds and creating responsive, accessible user interfaces.
- Implemented reusable modular components, integrated complex REST APIs, and managed global application state using **Redux** and React Hooks (*useState*, *useEffect*) to significantly improve system maintainability.
- Collaborated closely with cross-functional product and design teams in Agile sprints, leveraging **Git** for reliable version control, code reviews, and structured deployment pipelines.

Software Developer Intern

Responsive Web Applications

Virtuebyte Pvt Ltd, Pune

01/2024 - 06/2024

- Built responsive, production-ready frontend web applications for real-world client projects using **React.js**, JavaScript, **HTML5/CSS3**, and **Tailwind CSS**, ensuring pixel-perfect UI implementation. Participated actively in structured tech reviews, functional testing cycles, rigorous code reviews, and Agile standups to streamline code delivery.

SKILLS

Frameworks & AI Tech	React.js, FastAPI, FastMCP, MCP Server, LangChain, n8n, Tailwind CSS
Languages	Python, TypeScript, HTML5, CSS3
Databases & Tools	Pinecone (Vector DB), Postman, Git, GitHub, REST APIs, MERN Stack

PROJECTS

Multi-Agent AI System for YouTube Comment Automation

[Article Link](#)

- Architected a custom multi-agent workflow in **n8n** utilizing the **YouTube Data API** and LLMs. Developed specialized autonomous agents for real-time sentiment analysis, duplicate comment detection, and content filtering, alongside a Contextual Reply Agent leveraging rich metadata for risk-free automated brand engagement.

AI Knowledge Agent Chat Application

- Built an intelligent chat system powered by **RAG (Retrieval-Augmented Generation)** to deliver high-context responses. Implemented vector document embeddings for persistent conversation memory and semantic search. Maintained dual orchestrations using both **n8n** workflows and **LangChain** tool-based reasoning logic.

AI-Powered Journal Chat App (MERN + Gemini)

[GitHub Link](#)

- Engineered a full-stack journaling platform using the **MERN stack**, integrating the **Gemini API** to act as an empathetic AI reflection assistant. Features secure JWT authentication, real-time chat history tracking via MongoDB, and automated generation of daily emotional summaries and motivational insights.

Umeed – Psychological Health Self-Help Platform

[GitHub Link](#)

- Co-developed a supportive web application using **ReactJS** and **MongoDB**. Designed and implemented modular dashboard components, including interactive feeds, structured self-help group pages, and dynamic cards.

EDUCATION

Bajaj Institute of Technology – B.Tech in Computer Engineering

7.98 CGPA

2024
